FILM TYPE PURCHASED: Panorama® Solar Films Panorama® Safety Films

LIMITED SIXTEEN (16) YEAR PRODUCT WARRANTY

In the unlikely event that the Panorama® film you have purchased should experience adhesive failure, bubbling, cracking, crazing, delamination, demetalization, peeling, excessive or unusual change of color [or other defect], Bekaert will replace the defective product ("Limited 16-Year Product Warranty") and provide removal and reapplication labor free of charge through one of its authorized dealers. This coverage is for sixteen (16) years starting from the Panorama® film installation completion date.

ADDITIONAL COVERAGE

In addition to the Limited 16-Year Product Warranty coverage, all Panorama® program window films provide additional limited warranty coverage for glass breakage and/or insulated glass (IG) unit seal failure (as described below) caused by thermal stress and/or thermal expansion, resulting solely and directly from the installation of a Bekaert approved film-to-glass application (collectively with the Limited 16-Year Product Warranty and the Limited Glass Warranty below, the "PremierPlus Limited Commercial Warranty").

LIMITED TEN (10) YEAR GLASS BREAKAGE WARRANTY

If glass breakage occurs within the Window Film Warranty period, as the sole and direct result of a Bekaert approved film-to-glass application, Bekaert will, upon verification of Window Film Warranty coverage, replace the broken glass and the window film and provide reapplication labor free of charge through one of its authorized dealers. This coverage is for ten (10) years starting from the Panorama® film installation completion date.

LIMITED INSULATED GLASS (IG) UNIT SEAL FAILURE WARRANTY

If IG unit seal failure occurs within the term of the window manufacturer's IG unit seal warranty period, as the sole and direct result of a Bekaert approved film-to-glass application, Bekaert will, upon verification of Window Film and Window Manufacturer's Warranty coverage, replace the IG unit/s and the window film and provide reapplication labor free of charge through one of its authorized dealers. In no case shall Bekaert's IG unit seal failure warranty coverage exceed the term limit of the window manufacturer's IG unit seal failure warranty.

To qualify for Bekaert's limited IG unit seal failure warranty: when making a warranty claim, the customer must provide Bekaert with a copy of the window manufacturer's IG unit seal failure warranty and written evidence, to Bekaert's sole satisfaction, establishing that coverage was in force at the time of the Panorama® Film installation and remains in force at the time of warranty claim. **IF THE CUSTOMER FAILS TO PROVIDE BEKAERT WITH THIS PROOF, THEN THE CUSTOMER WILL NOT BE ELIGIBLE FOR WARRANTY COVERAGE UNDER THIS PROVISION.**

PAYMENTS UNDER THE LIMITED TEN (10) YEAR GLASS BREAKAGE WARRANTY AND THE LIMITED IG UNIT SEAL FAILURE WARRANTY ARE SUBJECT TO A MAXIMUM COMBINED WARRANTY CLAIM LIMIT OF \$1,750 APPLIED ON A PER-WINDOW BASIS.

LIMITED GLASS WARRANTY

If the installation of Panorama® program window film voids the window manufacturer's glass and/or IG unit seal warranty ("Window Manufacturer's Warranty") and your glass experiences a failure covered by the Window Manufacturer's Warranty during its term, Bekaert will pay for the cost of replacing the window glass (installed with Bekaert's Panorama® film) with window glass of same or similar value and will also replace the Panorama® film on the new window glass ("Limited Glass Warranty").

In no event shall the Limited Glass Warranty extend beyond the duration of the Window Manufacturer's Warranty or exceed any replacement values or allowances as defined by the Window Manufacturer's Warranty terms.

This Limited Glass Warranty is not available if the Window Manufacturer's Warranty has expired prior to the application of Panorama® film or if the Window Manufacturer's Warranty is terminated or voided under its own terms for something other than the installation of Panorama® window film.

All Limited Glass Warranty repair service must be made by a Bekaert authorized warranty repair service provider and be approved by Bekaert prior to service.

Bekaert shall only be liable for items expressly covered by the Window Manufacturer's Warranty. The terms and conditions, including specified exclusions, that are in the Window Manufacturer's Warranty which neither conflict with the terms herein nor grant greater coverage than that specified herein, are hereby incorporated by reference in this Limited Glass Warranty.

PAYMENTS UNDER THE LIMITED GLASS WARRANTY ARE SUBJECT TO A MAXIMUM COMBINED WARRANTY CLAIM LIMIT OF \$1,750 APPLIED ON A PER-WINDOW BASIS.

FILM-TO-GLASS APPLICATION DISCLAIMERS

Single pane clear tempered and single pane tinted tempered glass are automatically pre-approved for Limited Ten Year Glass Breakage Warranty Coverage.

Double pane IG units are automatically pre-approved for Limited Ten Year Glass Breakage Warranty, provided that the Low-E coating or tinted coating, if any, is on surface 1 or 2. If the Low-E coating or tinted coating is on surface 3 (inner glass pane), then proper film-to-glass application guidelines need to be adhered to.

Arched windows are automatically pre-approved, provided that proper film-to-glass application guidelines are adhered to.

All installations over 2,500 square feet will require that a Film-To-Glass Application Checklist (Catalog #0322 and located in the Dealer's Corner on the website www.panoramafilm.com) be submitted and written approval received prior to installation to confirm warranty coverage.

In addition, round, bent or laminated glass may be approved, although a Film-To-Glass Application Checklist (Catalog #0322 and located in the Dealer Corner on the website www.panoramafilm.com) must be submitted and written approval received to confirm Limited Ten Year Glass Breakage Warranty and Limited IG Unit Seal Failure Warranty Coverage.

HOWEVER, THIS LIMITED TEN YEAR GLASS BREAKAGE AND/OR LIMITED IG UNIT SEAL FAILURE WARRANTY IS NOT AVAILABLE WHEN FILM-TO-GLASS APPLICATIONS INCLUDE ANY OF THE FOLLOWING:

FILM DRY-OUT TIME

The mounting solution used during the installation of your Panorama program window film may require a dry-out time. Cold or non-sunny weather conditions can lengthen the dry-out time, while warm weather and direct sun light exposure will shorten the dry-out time. Small water beads and a slightly cloudy look may appear during the dry-out time. If slow drying does occur, do not become alarmed. The film will dry-out.

DO NOT CLEAN THE FILM FOR 30 DAYS AFTER INSTALLATION

CLEANING INSTRUCTIONS

- Always use clean, soft materials to wash and dry your window film surfaces.
- Most glass cleaners will work well, although a good cleaning solution for window film is 1/2 ounce of liquid dish soap added to 1 quart of fresh water.
- A soft cloth or a clean synthetic sponge is recommended for washing the window film followed by another clean soft cloth or soft rubber squeegee for drying.
- To avoid scratching the film, do not use bristle brushes, abrasive scrubbing sponges, or any cleaning materials that may have been contaminated with dirt particles, as is commonly the case when washing interior and exterior windows with the same cleaning materials. Some brands of paper towels are even coarse enough to put fine scratches in the film. While these scratches may be too thin to be seen at the beginning, they can damage the polished look of the film over time.
